

## Cloud-Edge Network Migration Solution

## Result and Business Advantage

The Cloud-Edge Network data migration solution provides unique value in terms of both CAPEX and OPEX savings. The CAPEX and OPEX savings are realized through the low purchase cost and minimal environmental impact the Cloud-Edge solutions offers in terms of software investment and data center footprint respectively. With the Cloud-Edge solution, risks are lowered due to the centralization of the migration engine and the flexibility with the migration logic. Via the centralized repository the migrations are executed and managed without sacrificing performance.
